Frame profile and colour

Choose from five different frame shapes and six different colour options to tailor your wardrobe to your personal taste.

FRAME PROFILE COLOURS

Door colours for your chosen door style.

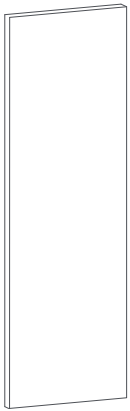

Choose from over 30 door colour options ranging from glass, satin glass, mirror, matt, gloss and textured woodgrain boards.

End panels and liners

If your wardrobe is being placed wall to wall you will only require liners but if you require one or two ends open, you will need to choose an end panel as well as a liner. You can choose from matt and gloss coloured board or woodgrain board to frame your wardrobe.

If you need a bit of help on what colours complement each other, why not take a look at our board match chart.

TEXTURED

Textured linen end panels and liners are only recommended for internals.

Internals

Whether you simply want a shelf and hanging rail or something a bit more, you can tailor the internals depending on your storage needs.

SHELF AND HANGING RAIL

The shelf and hanging rail is a fixed size unit at 2500mm wide x 620mm deep.

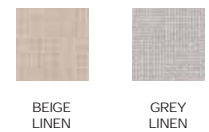

It comes with colour matched batons which fix to the walls and a 25mm chrome hanging rail and vertical pole support.

If your wardrobe is smaller than 2500mm the shelf and hanging rail can simply be cut to size. If your wardrobe is greater than 2500 you can get multiples of the shelf and hanging rail and put an end panel between them for stability.

HINGED

HOW TO PLAN FOR YOUR HINGED WARDROBES

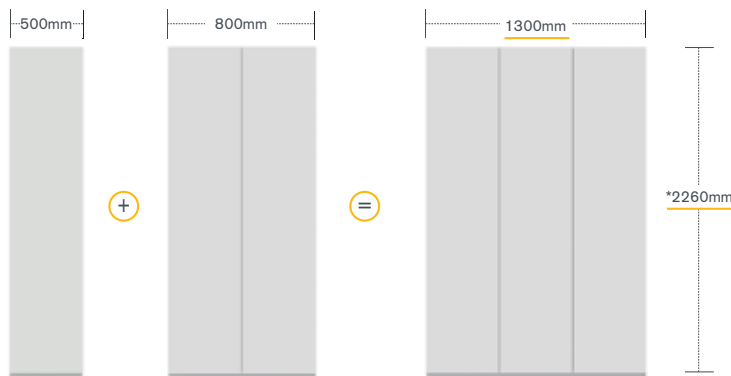

Step 1. Measure your space

Ensure you are fully equipped to start planning. Measure your space wall to wall, including ceiling heights. Remember to note down things like:

- ✓ Sockets
- ✓ Switches
- ✓ Window ledges
- ✓ Radiators
- ✓ Doors

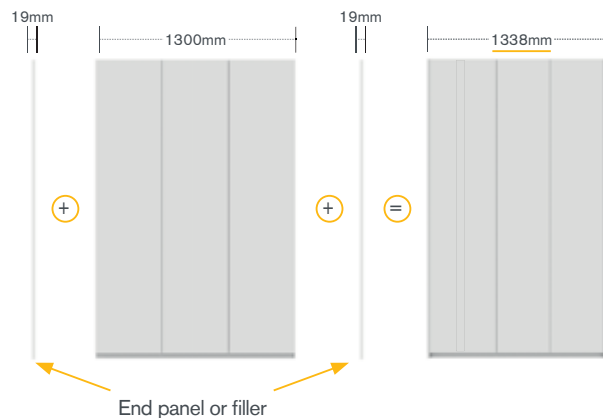

Step 2. Create a wardrobe run

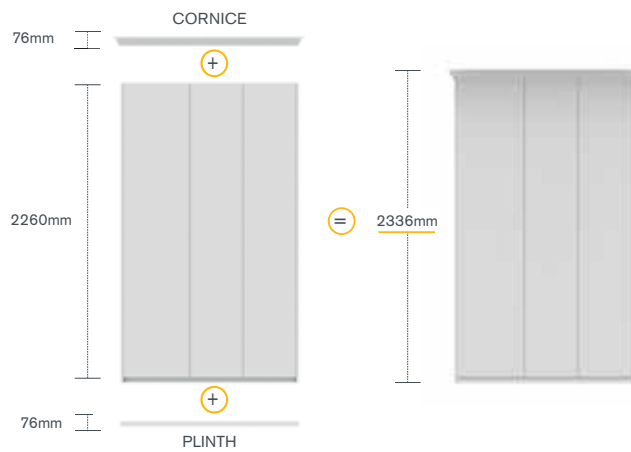

Get an idea of the wardrobe you want by adding combinations together.

Step 3. Add end panels/fillers or posts

Depending on whether your design is wall to wall or open ended, you will need to add either an end panel or a custom fit plinth as a filler to cover the linen coloured cabinet.

Step 4. Add cornice and plinth

You will always need to use a length of plinth to cover the structural base of the wardrobe and depending on whether your design has the space, you can either add a cornice or an infill to ceiling, to finish off the wardrobe.

Step 5. Add your internals

We have multiple internal storage options for our wardrobes. You can choose from pre-determined bundles or create and design your own, depending on your storage needs.

For the full internals section please see page 42.

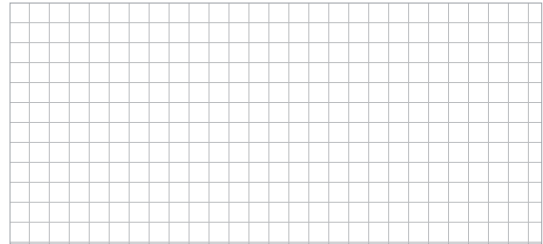

MADE-TO-MEASURE

HOW TO PLAN FOR YOUR HINGED WARDROBES

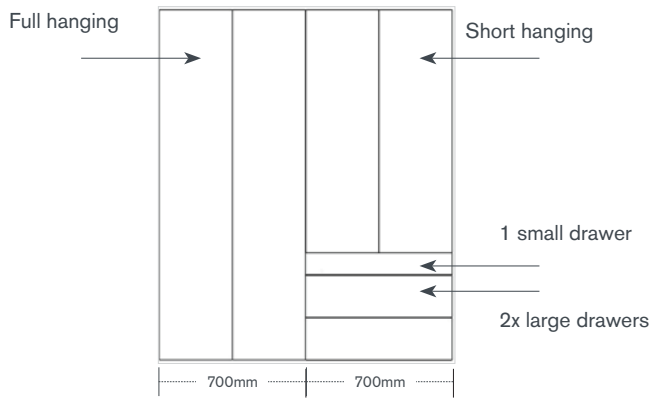

Step 1. Measure your space

Ensure you are fully equipped to start planning. Measure your space wall to wall, including ceiling heights. Remember to note down things like:

- ✓ Sockets
- ✓ Switches
- ✓ Window ledges
- ✓ Radiators
- ✓ Doors

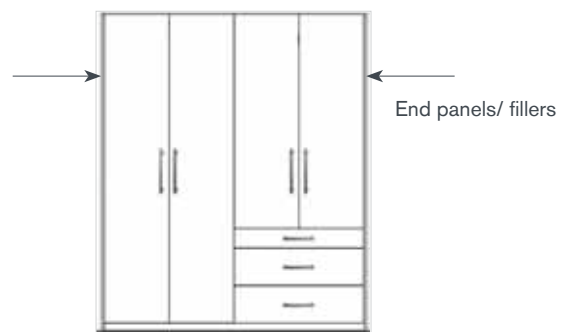

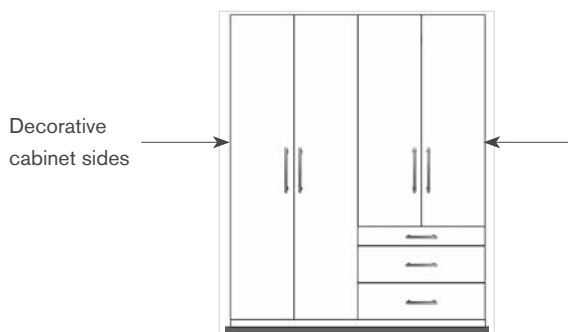

Step 2. How many doors

Using the measurements get an idea of the wardrobe storage you want by drawing out how many drawers and doors you require.

Step 3. Add end panels/fillers or posts.

Decide if you want to include end panels, fillers or posts on your wardrobes or have a decorative cabinet

Step 4. Height

Decide what height you want your storage to be

Wardrobes right to the ceiling

Wardrobes with space above

Step 5. Add your internals

Depending on your storage needs, design your own internals.

MADE-TO-MEASURE / SLIDING

HOW TO PLAN FOR YOUR SLIDING WARDROBES

Step 1. Measure your space

Ensure you are fully equipped to start planning. Measure your space wall to wall, including ceiling heights. Remember to note down things like:

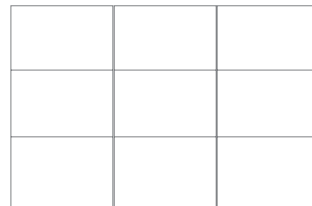

- ✓ Sockets
- ✓ Switches
- ✓ Window ledges
- ✓ Radiators
- ✓ Doors

Step 2. Create a wardrobe run

You will need to decide how many doors you would like for your run. Whether its 2, 3 or 4.

Please bear in mind if you are using internal storage how this would work with the number of doors you require.

Step 3. Choose your Aluminium frame profile

Depending on the look you are aiming to achieve with your sliding wardrobe will depend on the frame you may choose. We have 5 frame types and 6 frame colours to choose from; some may be easier for you to open than others as each frame type has a different shape.

Its best that you take the time to select the frame that is best for you, as once selected it cannot be changed.
